

THURSDAY, DEC. 31, 1891.

JOE BURNETT, of the Paris Mercury, one of the oldest and best papers in the State, is in Mexico to attend the Rodas-Williams wedding.

PEOPLE who have frozen to death are being found in Sunny Italy, while here a winter overcoat was a burden on Christmas Day. Jack Frost seems to have lost his bearings.

SEVERAL of the society ladies have signified to the LEDGER that they will be at home on New Year's Day. While refreshments will not be served, callers will be welcome.

LADDONIA has a Republican club with 50 members. That town should have a Democratic club of 100 members. Democrats in and around Laddonnia are expected to come to the front.

It is right peculiar how some church members think it is a sin to dance at one ball and not a sin to dance at another. If it is a sin for church members to dance on Friday night it surely is a sin for them to dance on Monday night.

THE LEDGER is making a special offer to new subscribers. We will send the Mexico LEDGER and Colman's Rural World, or the Mexico LEDGER and St. Louis Republic, or the Mexico LEDGER and the St. Louis Globe-Democrat one year for \$2.25.

A. L. BURNETT, formerly of Mexico, is now a teacher at King Fisher, Oklahoma, and before the teachers' institute read a very creditable paper on school work which showed careful thought and great research, and we are sorry that we have not room for the entire paper.

BISHOP POTTER, during a sermon in New York last Sunday, said that beauty in women leads to sin and should not be cultivated. Verily that doth sound like heresy. It is a religious duty for woman to be homely, the whole work of evangelization might as well be commenced over again.

THE LEDGER is arranging for a serial story to run through 1892, which will be full of interest and superior to any which has yet appeared in this paper. We are arranging for several new and attractive features for this paper and shall endeavor during 1892 to make the Mexico LEDGER better than ever.

THE merchants of Mexico should now contract for their advertising for a year. The successful advertiser regular throughout the entire year. In this way he pays no more for a reasonable amount of space for 12 months than he would for space during 6 months when the papers are crowded. It pays to advertise regularly and judiciously. Successful business men arrange for advertising the same that they do for clerk hire, rent, light and other expenses necessary to a successful business.

Those papers in the state which are not friendly to Governor Francis are tearing their hair out because he don't make up his mind in regard to calling an extra session of the Legislature without advising with prominent jurists whom he thinks capable of advising him on the matter. Governor Francis always acts promptly but never acts until he thoroughly understands the matter in hand. We presume he is consulting the best interests of his party rather than trying to please the newspapers and politicians. Governor Francis if he has made any mistake at all in the eyes of those who kick, it is that they are not being consulted.

YOUNG MEN should notice that it is as popular to get drunk as it once was said to be. The following from a Washington City correspondent is pertinent to this matter: "But the day of the drunkard is past in this country and drunkards no longer fill the halls of Congress; drunkards do not operate our railroads, direct our banks, make our newspapers, write our literature, expound our laws and morals, and manners are changed since a then future Prime Minister of England, in a state of nudity, at midday, and gloriously drunk, ran through Hyde Park. The man who would be a ruler in Israel in this day must be a ruler of his appetite for drink."

The Kansas City Times, speaking of the Leonard and the Farmers' Alliance, says: "A good story is told of how the Mount Leonard sub-alliance of the Saline county order is conducted. The Leonard—Leverett, Abiel and Charley—live there. Brother Leverett is president of the State order, Brother Abiel is president of the county order and Brother Charley figures as a charter member of both. When a meeting of the Mount Leonard order is held, Abiel presides. One of the other brothers makes a motion, the other seconds it and Brother Abiel, as president, declares the motion adopted unanimously. It is said that many of the extreme things adopted and 'whereas' by the Saline county alliance were formulated in this fashion by these modern 'three tailors of Tooley street.'"

Texas appears to be an idea prevalent with some people that the origin used in Mexico is for more job printing offices. As we

understand the matter there are more job printing offices in Mexico now than there is work, at least we are sure of one thing and that is the LEDGER job rooms are prepared to do first-class work of all kinds. We are not running a 'scab' printing office, but will duplicate the styles and prices of any first-class printing office in the State and guarantee satisfaction.

C. C. MAFFITT, Chairman of the State Democratic Central Committee, it is reported, will resign at the next meeting of the Committee. Maffitt is one of Missouri's most active Democrats and has done good service as Chairman of this Committee and we are sorry for the report. Charley Maffitt has a host of friends all over Missouri, in the country as well as in the city who appreciate his services to the party.

"A CHRISTMAS REVERIE," by Walter Williams, of the Columbia Herald, referring to a dream of the newspaper men in Missouri, was quite a spicy article and thoroughly enjoyed by the fraternity throughout the State. Walter got Bob White and Sam Cook mixed up most too close for this warm weather.

Strong Comparison.

From The St. Louis Republic.
Editor Sam Keller of the Lebanon Republican is a great lover of a joke and is always ready to take advantage of an opportunity to get off something good on his friends. At the convention of the Missouri Press Association held in this city Colonel Bob White of the Mexico LEDGER was nominated for corresponding secretary of the association. Keller got up to second the nomination and tell the assembled editors how well fitted for it and how much Colonel White deserved the honor of the office about to be conferred. "No better man could be chosen," said Colonel Keller, "and none have served the interests of the association better than he, and above all he is a man of broad and benevolent ideas and a gentleman who—when Keller looked for a moment round the room trying to find a finisher for his sentence, and noticing the long and broad-shouldered understanding of Colonel White himself resting peacefully on a chair back, an idea occurred to him and he finished the sentence with "whose heart and whose brains are as big as his feet." Gentlemen, I need say no more, that is—" but he got no further, for everybody was convulsed with laughter at the oddity of the comparison.

Whisky And Democracy.

From the Chittenden Constitution.
It is the custom of many ignorant yet well meaning people to class Democracy and whisky together. The very opposite is true, however, as will be seen from the following table from the Louisiana Free Press, originally compiled by the Chicago Tribune, a Republican paper, the states compared by the banner temperance states respectively of the North and South—the Harrison and the Cleveland states:

REPUBLICAN STATES.

Iowa, 1 saloon to every 45 people
Kansas, 1 saloon to every 523 people
Vermont, 1 saloon to every 865 people
Maine, 1 saloon to every 1022 people

DEMOCRATIC STATES.

Alabama, 1 saloon to every 1,183 people
Arkansas, 1 saloon to every 1,170 people
South Carolina, 1 saloon to every 1,153 people
Mississippi, 1 saloon to every 1,017 people
North Carolina, 1 saloon to every 1,593 people

A Good School.

To the Editor of the Ledger.
The Thompson, Dec. 27—Mr. Editor, can you spare a small space in your paper for this school report.

Friday, Dec. 18, closed with written examination, the second quarter of the Thompson school.

Number of pupils enrolled, 40.
Average daily attendance, 31.

Those whose standing is 95 or above are Clara Vanderford, Nettie Vanderford, Sidney Geary, Dennis O'Callahan, James Haley.

Those who received prizes were Clara Vanderford, Nettie Powell, Hallie Haley, Edgar Powell, Fannie Tilger, Daisy Powell and Mary Hamblin. NELLIE HOVER, Teacher.

Shipwrecked in St. Lawrence Gulf. QUEBEC, Dec. 28.—The Marine Department has been notified that a shipwrecked crew is cast away on Bird Rocks in the Gulf. No particulars have been received, but it is suspected that they are the crew of a French lugger, which is reported as having left St. Pierre a few days ago. Her destination was kept a secret, but knowing ones say she had a cargo of profit spirits which it was intended to run ashore at some Quebec village.

Silas Woodson, Jr.
St. Joseph, Mo., Dec. 28.—Silas Woodson, Jr., the only son of ex-Governor Silas Woodson, died this afternoon of a violent attack of pneumonia. The young man was attending the Military Academy at Mexico, Mo., and came home on Monday to spend the holidays. The day he returned he was stricken and was unconscious from that time until his death.

Drowned Before Their Mother's Eyes. Paris, Mo., Dec. 29.—Two sons of Mr. Ed Delaney, living six miles northwest of Paris, while playing on the ice on his pond, broke through and drowned before they could be rescued, although their mother saw them as they went down.

Prof. Torreyson and E. H. Carter are hunting near Martinsburg. They took their canines and went down on the train to-day.

W. J. Robertson and wife of Hoxie, Kan. are in Mexico, the guests of J. T. Williams, brother-in-law of Mr. Robertson.

CLERK OF THE SUPREME COURT DIES.

This Morning.

JEFFERSON CITY, Mo., Dec. 28. Capt. J. D. Conner, clerk of the Supreme Court, died at 2:30 o'clock this morning from a stroke of paralysis. He was stricken down on the 19th inst. The remains were shipped to Lexington this afternoon for burial.

There are a dozen applicants now in the field for the vacancy. The office pays \$3,000 yearly and is filled by appointment of the Supreme Court.

THE FIGHT FORWARD.

Let Tariff-Reformers Do Their Duty and All Will Be Well.

MEXICO, Mo., Dec. 25.—Notwithstanding Speaker Crisp has organized the Committee of Ways and Means apparently in payment of his own debts and not in the public interest, there is no reason for discouragement in having the reform of the tariff made the most prominent question in the next Presidential contest. Tammany and Gorman can be made to take a back seat, and Speaker Crisp will be impotent to stem the tide of tax-reduction. In other words, if the Democrats are sincere in their desire to lift the burdens of taxation from the shoulders of the people, their more than two-thirds majority in the House will accomplish the objects without the necessary intervention of any report from Springer's Ways and Means Committee. This was effected as to quinine twelve or fifteen years ago, and millions of dollars saved to the people by putting them on the free list, by suspending the rules and passing a bill in the House (filed by a Kentucky member, now of the Chicago Exposition Commission (Mr. McKeezie).

The same may be said as to the coinage of the silver dollar, which was passed by a two-thirds vote in the House and went to the Senate. Let the tariff-reformers of the House not wait upon the Ways and Means Committee, but let them resolve to send bills to the Senate putting salt, lumber, all mineral ores, iron, copper and lead, wool and all fibrous substances, binder's twine, cotton ties, etc., in separate bills, if you please, and thus throw the responsibility of action or non-action thereon upon the Senate.

This should be done by argument among the leading tariff-reformers without delay, and the result would be that Springer and his "do-nothing" allies would be forced to bring in bills reducing the rates of taxation on manufactured articles at an early day for the action of the House.

A. H. BUCKNER.

We enjoyed a pleasant call yesterday from Dr. J. E. Dunbar, of Macon City, the well-known eye, ear, throat and nasal specialist. The doctor comes here from Jefferson City, where he remained several weeks and met with great success. He had expected to leave here January 1st, but there were so many calls for him he is compelled to remain here until January 1st, when he will leave for Mexico. The doctor was here three years ago at which time he established his reputation for competency. He now has rooms at the Powers House, where those who desire to see him can find him.—Columbia Statesman.

Obituary.

Died, at Gant, Mo., Dec. 24, 1891, Dr. Thos. B. Robinson in 62nd year of his age. At a special meeting of Hickory Grove Lodge, No. 81, A. F. A. M., held on the 26th day of Dec. 1891, the following resolutions were adopted:

WHEREAS, God in His Allwise Providence has removed from our midst our esteemed Brother Thos. B. Robinson long a member of this Lodge.

Resolved, That in the death of Brother Robinson this Lodge has lost an honored member. The community a skillful Physician. The church a consistent christian, and his family a kindly disposed husband and father.

Resolved, That as a mark of respect to his memory the members of this Lodge wear the usual badge of mourning for 30 days and that a copy of these resolutions be spread on the records of this Lodge, and that these resolutions be published in the Mexico LEDGER.

J. D. BRATTON,
J. B. PHILLIPS,
M. B. FLYNN,
Committee.

G. W. Painter and wife came up from Benton City yesterday for a visit. Mr. Painter is teaching school near Benton.

Shipwrecked in St. Lawrence Gulf. QUEBEC, Dec. 28.—The Marine Department has been notified that a shipwrecked crew is cast away on Bird Rocks in the Gulf. No particulars have been received, but it is suspected that they are the crew of a French lugger, which is reported as having left St. Pierre a few days ago. THE UNITED STATES AND CANADIAN GOVERNMENTS ANALYZE THE BAKING POWDERS.

Comparative Strength and Purity of the Different Brands Officially Determined.

Prof. Haines, Consulting Chemist of the Chicago Board of Health Gives His Opinion.

From Chicago Tribune.

The public is always responsible to suggestions about the food it eats. Great interest has been taken in the investigations made by the United States and Canadian governments and by the different boards of health to show the purity or impurity of milk, baking powders, spice, and other articles of daily use in the culinary department of our households.

Just now the subject of baking powder is claiming public attention. We all desire pure and wholesome bread and this cannot be had with the use of impure or poisonous baking powder. There can be no longer any question that all the cheaper lower grades of baking powders contain either alum, lime or phosphoric acid.

The official analyses by the United States and Canadian governments have therefore been studied with interest and have clearly established the facts upon this subject. The United States government report gives the names of eighteen well-known powders, some of them advertised as pure cream of tartar baking powders, that contain alum.

The report shows that the Royal baking powder was found the strongest in leavening strength, evolving 100.6 cubic inches of gas per single ounce of powder. There were eight other brands of cream of tartar powders tested and their average strength was 111.5 cubic inches of gas per ounce of powder.

The Canadian government investigations were of a still larger number of powders. The Royal baking powder was here also found the purest and highest in strength, containing 129.42 cubic inches of leavening gas per ounce of powder. Nine other cream of tartar powders were tested, their average strength being reported to be 80 cubic inches of gas per ounce.

These figures are very instructive to the practical house-keeper. They indicate that the Royal baking powder goes more than 33 per cent further than the others, or is one-third more economical. Still more important than this, however, they prove this popular article has been brought to the highest degree of purity—for its superlative purity this superiority in strength is due—and consequently that by its use we may be economical, the purest and most wholesome food.

The powders of lower strength are found to leave large amounts of inert matters in the food. This fact is emphasized by the report of the Ohio State Food Commissioner, who, while finding the Royal practically pure, found no other powder to contain less than 10 per cent of inert or foreign matters.

The public interest in this question has likewise caused to be made investigations by our local authorities. Prof. W. S. Haines, of Rush Medical College, a leading chemist of the Chicago Board of Health, has found results similar to those reported by the national and Canadian authorities. Dr. Haines says: "I have recently obtained samples of the chief baking powders in the market, and have subjected them to careful chemical examination to determine their purity, wholesomeness and leavening power. As the result of my tests I find the Royal baking powder superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurities, and in baking it gives off a greater volume of leavening gas than any other powder. It is, therefore, not only the purest, but also the strongest powder with which I am acquainted."

Dr. S. HAINES, M. D., Consulting Chemist, Chicago Board of Health.

Official Food Tests.

The United States and Canadian Governments Analyze the Baking Powders.

Comparative Strength and Purity of the Different Brands Officially Determined.

Prof. Haines, Consulting Chemist of the Chicago Board of Health Gives His Opinion.

From Chicago Tribune.

The public is always responsible to suggestions about the food it eats. Great interest has been taken in the investigations made by the United States and Canadian governments and by the different boards of health to show the purity or impurity of milk, baking powders, spice, and other articles of daily use in the culinary department of our households.

Just now the subject of baking powder is claiming public attention. We all desire pure and wholesome bread and this cannot be had with the use of impure or poisonous baking powder. Obituary.

Died—Robert Craig Mitchell, on the 20th of December, 1891, at the residence of his son-in-law, Capt. Ben Eli Guthrie. Robert Craig Mitchell was born near Abingdon, Va., Feb. 22, 1811. He came to the state of Missouri in 1836. He was married to Elizabeth A. Wright of St. Louis in January, 1839, with whom he lived happily for over half a century. The fruit of this union was ten children of whom seven are yet living, among whom are Mrs. Lloyd McIntosh of Audrain, Mrs. B. E. Guthrie of this city and Dr. Mitchell of Sioux City, Dr. J. B. Mitchell, pastor of the C.P. church of Kirksville, Mo., was a brother, and Robert G. Mitchell, Esq., this city, was a nephew of the deceased. Brother Mitchell professed faith in Christ as his personal savior over 40 years ago, uniting with the Presbyterian church of St. Louis. He moved to College Mound in 1869 and there united with the Cumberland Presbyterian church. In the various relations as a Christian, as a neighbor, as a citizen, as a husband and father, he sustained an unblemished character and had the confidence and esteem of all who knew him. He was a man of very quiet disposition, and his good influence in a community grew out of the strong elements that formed a character of unimpeachable integrity. He was a serious and a pious man, for the past 7 years he was a cripple confined to his room. He bore his affliction with patience and fortitude, tenderly cared for by loving hands and hearts that made his last days. He was a young man when he was orphaned by the death of his father by death, and the care of the widowed mother, farm and children was nobly born by him. Never did a son more nobly discharge his duty to his mother and his country. He is gone to his rest and entered into peace. His funeral was preached by Rev. J. M. Gaiser from the text: "I shall be satisfied when I awake with thy likeness." J. G. M.—Macon City Democrat.

The deceased lived in Audrain County along about 1869 or 1870 and was well and favorably known here. He was a brother of Mrs. Lloyd McIntosh.

Fine Restaurant.

Mr. Bob White—wish you would meet K. B. Brown, John Willy, William Sims, Sam Wright, Bob Johnson and about 3000 more of my former friends that I have fled up at great expense to Mexico ever in the city. One of the nearest, nicest and most pleasant lunch counters and restaurants in Mexico ever in the city. Farmers will appreciate when they come to town. The prices are so low that they can get a good meal and see for themselves. The very best of everything and at such low prices.

Dinner, 25c
Breakfast, 10c
Supper, 20c
Lodging, 50c
Baked Beans, 10c
Sandwiches, 10c
Cakes, 10c
Bread and butter, 10c
Fresh oysters in any style, 50c
Ladies and children, one-half the above prices.

D. J. E. DUNBAR, in Mexico.

Dr. J. E. Dunbar, the famous eye, ear and throat specialist, was in Mexico to-day and made this office a social call. He is a native of Macon City, Mo., and has been in Mexico for some time. He is a very successful practitioner and has a large number of patients. He is a very kind and courteous man and is well known to all who have been in Mexico.

Dr. J. E. Dunbar will go to-morrow to Columbia for a professional stay of two weeks. The doctor is not a stranger to our people, having been in our city to Columbia where he will remain two or three weeks, where he will visit Mexico. Dr. Dunbar is well known to the people of this county and Audrain county, having been here two or three times before. He has an excellent reputation for his skill and his success this time has been a very successful one. He is a very kind and courteous man and is well known to all who have been in Mexico.
